Cost-in-Use

Maximum cleaning performance.

A premium trolley engineered for top performance.
With over one million configuration options, Equipe Hotel adapts to your needs.

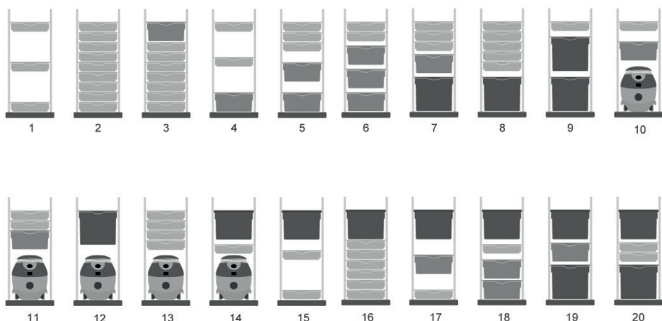

High loading capacity

A fully open interior combined with stainless steel – reinforced shelves ensures maximum storage space, minimizing time-consuming trips.

Detachable cleaning unit

Easily attach or detach the extension H-Cleaning to your Equipe Hotel trolley for a seamless modular cleaning setup.

Multiwall

The walls of this unit have a Multiwall with 17 smart slot-in positions for 5l, 15l or 35l boxes – maximizing usable space. Easily reconfigure it to match any workflow. And repeat! It's easy to disinfect, making it ideal for maintaining top-level hygiene.

Detachable
cleaning unit

Compatible with all floor cleaning systems.

The Equipe Hotel trolley is compatible with all floor cleaning systems and application methods. Simply choose the system you need and easily adapt it to meet your specific requirements.

Pre-Prepared

Pre-Prep 10l and 15l

Designed for pre-preparation of mops in 10l and 15l boxes, allowing for easy access to pre-wetted mops directly from the boxes. Suitable for flat mops such as Twixter, Sprint V and Sweb.

Sweb

The Equipe Hotel trolley meets the Sweb Class. Use it with the leading double-sided, pre-prepared floor cleaning system to achieve the best cleaning results in hygiene sensitive areas or in public facilities.

Point of application

DesTub

The DesTub system on the Equipe Hotel trolley brings precision and performance directly to the point of use. Specially designed for large offices and environments demanding highest hygiene. It enables both one-step and two-step cleaning with ease – ensuring reliable results and optimized workflows.

Bucket & Press

Sprint

Push your cleaning operation to next level efficiency. The Equipe Hotel trolley with the Sprint as a bucket and press system is specifically optimized for fast and secure cleaning in GBC and meets exceptional cleanliness in office buildings.

UltraSpeed Pro

UltraSpeed Pro is the most up-to-date and best performing bucket and press system in the market. New recycled buckets and the new recycled Max Mops make high performance mopping ultra sustainable.

Bucket & Flat press

Twixter

Cleanliness made faster – with Twixter Bucket & Press! Double the mop, double the speed. Twixter's double-sided mops allow you to clean more square metres at the same time – without touching the mop and in a permanently upright position.

Vacuum cleaners

Vacuum cleaners

Designed to support a vacuum cleaner, this extension ensures you have everything you need at your fingertips. Streamline your workflow and enhance productivity by keeping floor and surface cleaning tools perfectly organized and ready for action.

Intelligently crafted for ergonomic comfort.

Ergonomic push bar with adjustable height

Easily adjust the push bar to five different heights at the touch of a button, ensuring optimal ergonomics for users of all sizes. For added convenience, the double driving push bar is available with integrated equipment holders.

Hands-free opening

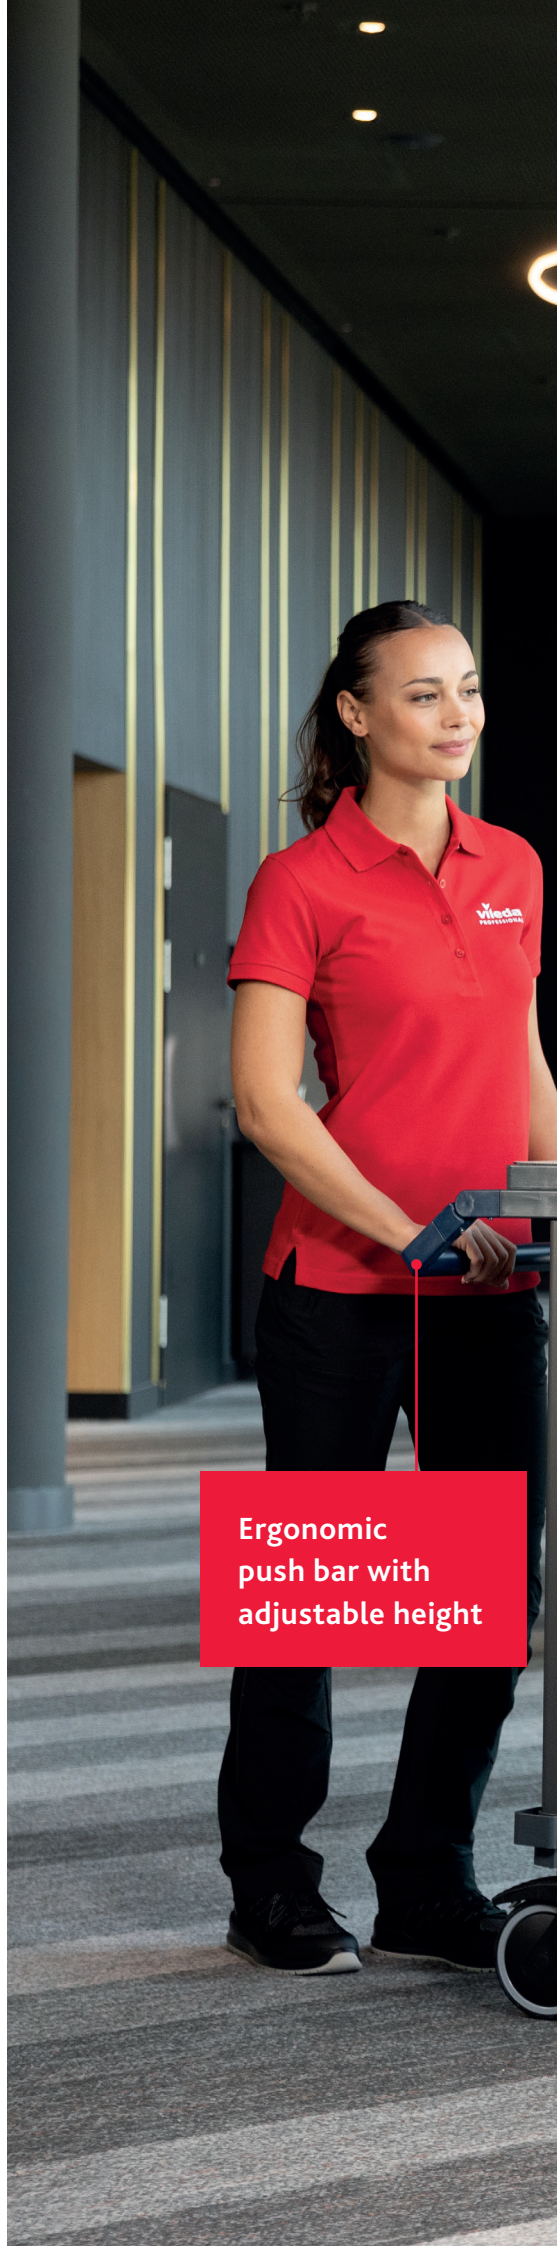

The integrated foot pedal allows you to open the disposable unit when your hands are full. This hands-free feature enhances hygiene, saves time, and makes handling waste disposal smoother and more ergonomic.

Effortless accessibility

All compartments, tools, and appliances are within easy reach, reducing unnecessary movement while saving time and optimizing speed.

Great manoeuvrability

Smooth gliding and responsive steering allow easy access to tight and hard-to-reach areas. Equipped with large castors and integrated brakes, the trolley is easy to manoeuvre – even when fully loaded and on carpet flooring – while providing excellent stability and control when needed.

Hands-free opening

The foot pedal on the disposal unit enables effortless, touch-free waste management and enhance user safety and comfort.

Hygienic

Our closed bucket system is designed with reference to the stringent DIN 13063 healthcare cleaning norms, ensuring exceptional hygiene and minimizing the risk of cross-contamination. A professional-grade solution, also available for the hotel environment.

Easy to clean

Smooth surfaces around the trolley enable quick and effective cleaning, reducing downtime and helping maintain high hygiene standards for a safer work environment.

Thanks to their fully enclosed design, the castors are quick and easy to clean, meeting the highest hygiene standards by preventing dirt, hair, and other particles from becoming trapped.

Efficiency in cleaning, delivered with commitment.

More space with easy add-ons

The Equipe Hotel trolley can be effortlessly expanded by attaching one or two add-on modules, allowing you to accommodate a disposal system, wet mop system, or vacuum cleaner for greater versatility and efficiency.

Modularity

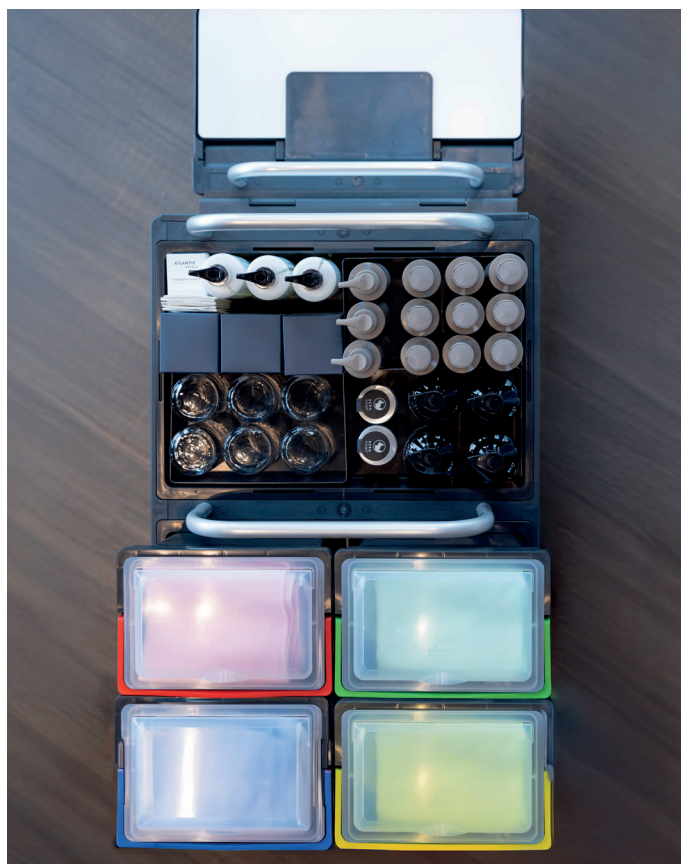

Discover how it easily adapts to a wide range of task: the Equipe Hotel flexible modular design lets you customize the trolley to perfectly fit your specific cleaning needs.

Above the floor

Configure your trolley with four 6l or three 8l color-coded buckets to organize cleaning solutions and prevent cross-contamination. With everything on top, your team cleans faster, smarter, and more hygienically.

Ease-of-use

Buckets are clearly marked with a simple color-coding system to ensure consistency, safety, and hygiene in the cleaning process.

Clear layout

A well-organized design ensures you always know where everything is, maximizing the use of available space in the cleaning trolley.

Panning lid for enhanced security and organization

The panning lid prevents direct access to the top of the Equipe trolley, offering extra space for additional equipment while ensuring everything remains clean, organized, and discreetly stored.

Uniform locking system for enhanced security

The uniform locking system ensures that one master key can close all the locks on the trolley, including the doors. This provides secure storage and prevents unauthorized access.

Ease-of-training

The clear, intuitive layout makes trainings, onboardings, and daily use faster and more efficient than ever before.

Digital ready

Easily attach a digital tablet using the Equipe tablet holder (sold separately) or combine it with the Vermop One software solution for a fully connected, smart cleaning experience – available in the DACH region.

Designed with tomorrow in mind.

Lasting flexible use

Components can be replaced to meet changing premises requirements or alterations.

Long service life

Constructed with high-quality materials, such as glass fiber reinforced plastic.

Made in Germany

Certified and transparent quality.

Availability of spare parts

Guaranteed availability for at least five years.

Recyclable

All elements of the trolley are recyclable after use.

Cost-in-use

One investment, lasting benefits.

Long lasting

Designed to be both lightweight and long-lasting, the Equipe Hotel trolley is Made in Germany using only premium-quality materials.

Long term savings

Once you invest in a new Equipe Hotel trolley, it will keep going – delivering reliable performance and long-term savings.

Return on investment

The Equipe Hotel trolley empowers your teams to work faster and more efficiently, ensuring a quicker return on investment. Its adaptable design allows it to be customized for each task, optimizing performance every time.

Underline the quality of your service

The Equipe Hotel trolley is not only functional but also stylish. Its clean, modern design fits seamlessly into any setting, adding a touch of elegance without drawing too much attention. Its appealing design, hygiene, and quality go hand in hand – its aluminum paneling ensures form stability, durability, easy cleaning, and a premium look that stands the test of time.

Be part of the company with our customized designs

All panels of the Equipe Hotel trolley can be fully customized with your customer's corporate design, providing an excellent opportunity to reinforce your brand identity and enhance your professional image.

Equipe Hotel. Make it yours.
